User's Manual

WE7000 Control Software Upgrade Kit

After setting up the WE7000 control software, you must install the WE7000 control software upgrade kit.

Prior to Installation

Have the CD-ROM containing the WE7000 control software upgrade kit installation disk for your measuring station ready. Before installing the upgrade kit, close all currently open programs.

Installation

1. Place the WE7000 control software upgrade kit installation disk into the CD-ROM drive.

Note.

If a WE control software upgrade kit is installed that is *older* than the one on the CD-ROM, the message below appears. Click **Yes**.

If a WE control software upgrade kit is installed that is *newer* than the one on the CD-ROM, the message below appears. If downloading the kit: First uninstall both the WE control software upgrade kit and the WE control software, then reinstall.
